Portfolio website: https://geodev-portfolio-app...
(+234) 8133642798

## SKILLS

- ❖ **JavaScript:**  ReactJS, NextJs
- ❖ **Styling / Library:** HTML, CSS, Bootstrap, TailwindCSS,  MUI, Styled-component
- ❖ **Product Design Skills:** Figma, Adobe XD
- ❖ **Version Control:**  Git, Github, Netlify, Firebase, Surge, Vercel, CI/CD

## WORK EXPERIENCE

**Integral IT, Lagos |** December 2022 - Current

● Transforming the prototype of the Ondo Electronic physical planning system into  a live web application, leveraging NextJs, Tailwind Css, Git and Github, React hook forms.

● Utilized Figma to design a visually stunning and responsive user interface for Ondo Electronic physical planning system (EPPS), that enhance users to apply for approval of their lands and plans from the state government for specified locations.

● Produced a visually stunning and responsive user interface for Integral IT Limited using Figma. Also, transforming of the prototype into a fully functional web application incorporating NextJs, Tailwind Css, React Hook Form and Testing Library, and Strapi for optimal performance

**Freelance | Goge Africa |** May 2021 -  2022

● Designed a responsive user interface for Land ARCQ using Figma. Also, transforming of the prototype into a fully  web application incorporating NextJs, Styled Component, Material UI, Formik, Testing Library, and Strapi for optimal performance

# PROJECTS

**Ondo EPPS:** Ondo Electronic Physical Planning System is a web application that enables users to apply for approval of their lands and plans to the state government for a given location. Built with JavaScript, NextJs, TailwindCSS, React Hook Forms. http://web.integral-it.africa/

**Goge Africaa:** A Software that augment the teaching and learning process of software engineers .Built with ReactJs, Styled-component, React, Redux, React formik https://goge-africaa.netlify.app/

**Ohmy Food:** A software that provides a solution to queuing in African restaurants by allowing users to order for their various dishes without queuing. https://geodev-ohmyfood.netlify.app/

**CareFinder App:** A Software that streamlines the hospital search process by allowing users to input their location or select from nearby cities, providing a comprehensive list of hospitals with contact details. Built with NextJs, TailwindCss, Typescript, React hooks form, firebase authentication, Testing Library.

# EDUCATION

**AltSchool Africa |** April 2022 - Till Date
- Diploma in Front-end Software Engineering

**Udacity Nanodegre |** 2022 - current
- Diploma in Software Engineering.

**Federal School Of Surveying, Oyo |** May 2019 - August 2021
- Diploma in Surveying & Geoinformatics (Distinction).
